

Sweetbriar Nature Center Visits Second Grade

On February 26th and 27th, Sweetbriar visited the second grade classrooms at Medford Elementary. The students were in the process of learning about animals and their habitats. Ms. Kraus brought a tadpole, rat, snake, and owl, as well as several other items to share. The students were able to see the animals close up and were also allowed to pet a few of the animals. Who knew that these animals live right in our own neighborhoods?
