The USDA has ended the Free meals waiver for all students. Families must again complete the Free and Reduced meals application, that can be found on the district website in the Food Services tab, to obtain Free and Reduced meals.

Breakfast Program: A daily breakfast is vital to the health and wellbeing of growing children. Through the breakfast program, every child in the school is offered milk, fruit, and grain components at a reasonable cost. Breakfast provides students with the opportunity to start the day well nourished, alert, and ready. **Breakfast is now available at our breakfast kiosk located in the main lobby as well as in the student cafeteria.**

Lunch Program: The school lunch program allows students to choose from different entrees to constitute a well-balanced meal providing one-third of the daily nutritional requirements. For those wishing to bring lunch from home, milk may be purchased to supplement lunch.

Any additional questions can be directed to our Food Services Department at (631) 687-6525.
